

# SWIVEL SLIDE

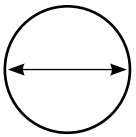

Swivel Slide sizes are Standard North American jewelry sizes.

**Size your Swivel Slide like a regular ring. A comfortably snug fit is always preferred. The inner ring stays snugly in place while the outer ring swivels 360 degrees with ease.**

If you do not know your correct ring size, choose from the following options:

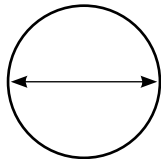

Trace your hand and measure the width of your finger. Match your width with the corresponding measurement to best establish the size you need. Or **print this page out at 100%** and lay a ring that fits you fits you well over top of the circles to gauge your size. Line the ring up so both **tips** of the arrows are *just* touching the inner walls.

5

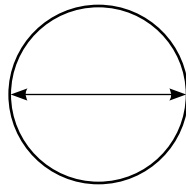

15.60mm /0.61"

9

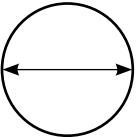

18.85mm /0.74"

13

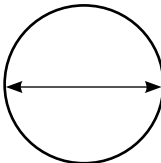

22.22mm /0.87"

6

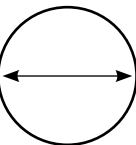

16.35mm /0.64"

10

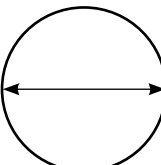

19.65mm /0.77"

7

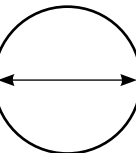

17.17mm /0.67"

11

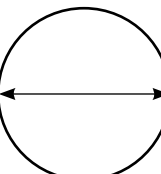

20.45mm /0.80"

8

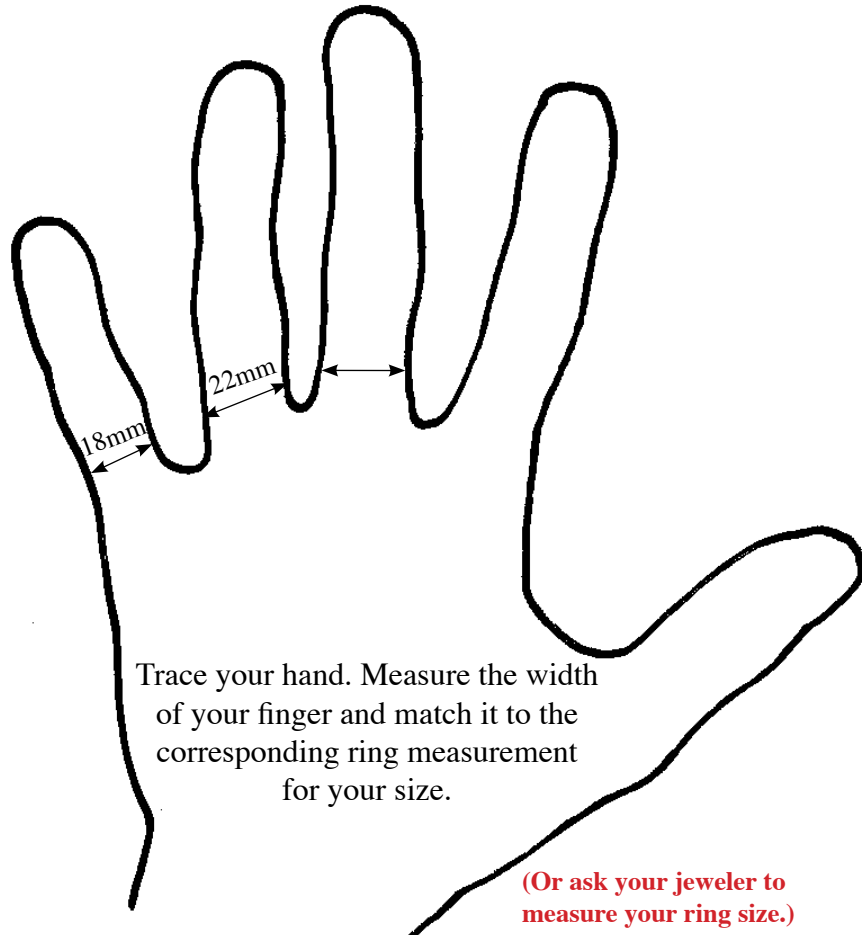

18.00mm /0.70"

12

21.30mm /0.83"

Trace your hand. Measure the width of your finger and match it to the corresponding ring measurement for your size.

**(Or ask your jeweler to measure your ring size.)**
