- Which ring size do I need

Please keep in mind that the largest part of your finger has to be able to fit through. To find out which size will fit you, please do the following:

Wrap a soft measuring tape around the largest part of the finger on which you wish to wear your ring, forming a complete circle and get a measurement (in mm, not in inches, 1 cm = 10 mm) at where it overlaps. If you cannot find a soft measuring tape, you can follow these steps:

- 1. find a piece of string or strip of paper no wider than 1/2"
- 2. Wrap it around the largest part of your finger
- 3. Use a pen to mark the point on the string/paper where it overlaps, forming a complete circle
- 4. With a ruler, measure the length (in mm, not in inch) from the starting end of the string/paper to the pen mark

Use your mm measurement to match up with the "Circumference metric mm" in this conversion table.

The nearest larger ring size under the "US Size" should fit you the best.

RING SIZING CHART

US Size	Circumference inches	Circumference metric mm	British	French	German	Japanese	Swiss
3	1.735	44	F	44	14	4	4
